

Project Data Sheet

Name 吳翊嵩

Project Topic My personal website

List the file names of all pages (htm, html, .css, .js, etc.) in your Website:

index.html
index.css
index.js
project.html
project.css
TimeCircles.css
TimeCircles.js
./minesweeper/minesweeper.html
./minesweeper/minesweeper.css
./minesweeper/minesweeper.js
./inventory_system/index.html
./inventory_system/homepage.html
./inventory_system/inventory.html
./inventory_system/member.html
./inventory_system/purchaseOrder.html
./inventory_system/sellOrder.html
./inventory_system/total.html
./inventory_system/style.css
./inventory_system/Page-2.css
./inventory_system/nicepage.css

Images:

Image File Name	Page Location	Description
logo(%E9%80%8F%E6%98%8E).png	index.html	My Logo

Tables:

Page Location	Purpose
minesweeper.js	Random generate the mine table
inventory.html	Place data in table
member.html	Place data in table
purchaseOrder.html	Place data in table
sellOrder.html	Place data in table
total.html	Place data in table

Forms:

Page Location	Purpose
./minesweeper/minesweeper.html	Let users choose the difficulty of the minesweeper game
./inventory_system/index. html	User log in
./inventory_system/inventory. html	User key in search information
./inventory_system/member. html	User key in search information
./inventory_system/purchaseOrder. html	User key in search information
./inventory_system/sellOrder. html	User key in search information
./inventory_system/total. html	User key in search information

CSS:

File Name	Used on:
index.css	Few pages ___ All pages ___ Nearly all pages ___ About half of pages ___ Few pages ___ None
project.css	Few pages
TimeCircles.css	Few pages

minesweeper.css	Few pages
style.css	Few pages
nicepage.css	Few pages
Page-2.css	Few pages

JavaScript/ DOM Scripting:

Location(s) of Script	Event(s)/Function(s)	Purpose/Description
TimeCircles.js		Generate Time Circle object
./minesweeper/minesweeper.js	\$('#gene').click	Event that the generate button is clicked
./minesweeper/minesweeper.js	\$('#difficulty').change	When user select the difficulty
./minesweeper/minesweeper.js	generate(row, col)	The final play space generating function
./minesweeper/minesweeper.js	geneForm(row, col)	Generate the play space form
./minesweeper/minesweeper.js	geneRandom(row, col, bombNum)	Randomly generate the bombs
./minesweeper/minesweeper.js	canPlay(canflag)	Check whether the game is end and does the player win or lose
./minesweeper/minesweeper.js	timecal()	Cal the beginning time

jQuery (Optional):

Location of Script	Purpose/Description
index.js	Sliding animation

___Attach additional sheet for more jQuery.

AJAX (Optional):

Location of Script	Purpose/Description

___Attach additional sheet for more AJAX.
